

TERRA MINI-JET lays HDPE pipe OD 75 mm (3 in) over 53 m (175 ft)

Location:	Lätti (Münchenbuchsee) Bern, Switzerland
Contractor:	Mosimann Leitungsbau AG/ Röthenbach/Switzerland
Lenght:	53 mtrs (175 ft)
New pipe:	HDPE pipe OD 75 mm (3 in)
Drilling fluid:	bentonite MAX BORE HDD
Ground conditions:	sandy, clay, compact, dry

The TERRA MINI-JET in the starting pit.

The view shows the demand of the bore. It begins at the right side of the trailer, undercrosses the creek and finishes at the left house corner.

Recognize the distance over 53 m (175 ft), even after changing weather conditions.

After 53 m (175 ft) the rupture is reached. The drilling head arrived in the arrival pit right on target.

The powerful TERRA MINI-JET convinced also in different ground classes, even under bad weather conditions.

After successful drilling and pull-back operation the HDPE pipe could be moved easily an mini excavator.
